

**Kaleidoscope Rose**  
*Rosa 'JACbow'*

Height: 4 feet

Spread: 4 feet

Sunlight: ☐

Hardiness Zone: 6a

Group/Class: Shrub Rose

**Description:**

The clusters of velvety pink ruffled blooms are produced continuously on a low mounded shrub with glossy green healthy foliage; these fragrant blooms make great cut flowers; excellent for mass planting or borders

**Ornamental Features**

Kaleidoscope Rose features showy fragrant pink flowers with gold eyes and creamy white streaks along the branches from late spring to mid fall. The flowers are excellent for cutting. It has green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

**Landscape Attributes**

Kaleidoscope Rose is a multi-stemmed deciduous shrub with a mounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Kaleidoscope Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

**Planting & Growing**

Kaleidoscope Rose will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
