

Sheridan Gold Wintercreeper
Euonymus fortunei 'Sheridan Gold'

Height: 3 feet

Spread: 3 feet

Sunlight: ○ ● ●

Hardiness Zone: 4b

Other Names: Wintercreeper Euonymus

Description:

A beautiful compact broadleaf evergreen accent shrub for the color garden; leaves emerge a bright yellow, fading to bright green with age, the contrast of new and old leaves is extremely attractive, some leaves even have mixed colors

Ornamental Features

Sheridan Gold Wintercreeper has attractive light green evergreen foliage which emerges yellow in spring on a plant with a round habit of growth. The glossy oval leaves are highly ornamental and remain light green throughout the winter. It produces pink capsules from mid to late fall.

Landscape Attributes

Sheridan Gold Wintercreeper is a dense multi-stemmed evergreen shrub with a more or less rounded form. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This shrub will require occasional maintenance and upkeep, and can be pruned at anytime. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Sheridan Gold Wintercreeper is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use
- Groundcover

Planting & Growing

Sheridan Gold Wintercreeper will grow to be about 3 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub performs well in both full sun and full shade. It is very adaptable to both dry and moist locations, and should do just fine under typical garden conditions. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments, and will benefit from being planted in a relatively sheltered location. This is a selected variety of a species not originally from North America.
