

Bubble Bath Rose

Rosa 'Bubble Bath'

Height: 10 feet

Spread: 6 feet

Sunlight: ☐ ☒

Hardiness Zone: 5b

Group/Class: Hybrid Musk Rose

Description:

This variety is exceptional as a large cascading shrub but branches are long enough to train on a wall or trellis; beautiful and elegant clusters of soft pink blooms create a stunning presentation in the garden

Ornamental Features

Bubble Bath Rose features showy clusters of lightly-scented shell pink flowers with creamy white overtones and buttery yellow eyes at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Bubble Bath Rose is a multi-stemmed deciduous shrub with a shapely form and gracefully arching branches. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease
- Spiny

Bubble Bath Rose is recommended for the following landscape applications;

- Accent
- Mass Planting
- General Garden Use

Planting & Growing

Bubble Bath Rose will grow to be about 10 feet tall at maturity, with a spread of 6 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
