

## Sky Pillar Euonymus

*Euonymus japonicus 'Sky Pillar'*

Height: 10 feet

Spread: 3 feet

Sunlight: ☐ ☒ ☒

Hardiness Zone: 6a

Other Names: Japanese Spindle Tree

### Description:

This is a stunning evergreen shrub with deep green glossy foliage that is dense and fast growing; it has a very narrow, columnar growth habit that makes it excellent for hedging and border applications; tolerant of salt spray

### Ornamental Features

Sky Pillar Euonymus has dark green evergreen foliage which emerges chartreuse in spring on a plant with a columnar habit of growth. The glossy oval leaves remain dark green throughout the winter.

### Landscape Attributes

Sky Pillar Euonymus is a dense multi-stemmed evergreen shrub with a narrowly upright and columnar growth habit. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This shrub will require occasional maintenance and upkeep, and can be pruned at anytime. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Sky Pillar Euonymus is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use
- Topiary

### Planting & Growing

Sky Pillar Euonymus will grow to be about 10 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for 40 years or more.

This shrub performs well in both full sun and full shade. It is very adaptable to both dry and moist locations, and should do just fine under average home landscape conditions. It is not particular as to soil type or pH, and is able to handle environmental salt. It is highly tolerant of urban pollution and will even thrive in inner city environments, and will benefit from being planted in a relatively sheltered location. This is a selected variety of a species not originally from North America.
