Height: 16 inches

Spread: 16 inches

Sunlight:

Hardiness Zone: (annual)

Description:

Beautiful pale pink daisies with deeper pink eyes rise above grey green foliage in this low maintenance variety; upright mounded plants produce continuous blooms from late spring to fall; a lovely addition to garden beds, borders and patio containers

Ornamental Features

Reflection Pink Marguerite Daisy has masses of beautiful shell pink daisy flowers with rose eyes and rose centers at the ends of the stems from late spring to early fall, which are most effective when planted in groupings. The flowers are excellent for cutting. Its tiny deeply cut ferny leaves remain grayish green in color throughout the season.

Landscape Attributes

Reflection Pink Marguerite Daisy is an herbaceous annual with an upright spreading habit of growth. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep. Trim off the flower heads after they fade and die to encourage more blooms late into the season. It is a good choice for attracting butterflies to your yard. It has no significant negative characteristics.

Reflection Pink Marguerite Daisy is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting

Planting & Growing

Reflection Pink Marguerite Daisy will grow to be about 16 inches tall at maturity, with a spread of 16 inches. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Reflection Pink Marguerite Daisy is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
