

Variegated Confederate Star-Jasmine

Trachelospermum jasminoides 'Variegatum'

Height: 10 feet

Spread: 24 inches

Sunlight: ○ ◐

Hardiness Zone: 7

Description:

This evergreen spreading groundcover or climbing vine has dark green and white variegated leaves that are often tinged with pink; white fragrant, and showy flowers in spring; excellent for walls or trellises

Features & Attributes

Variegated Confederate Star-Jasmine features tiny fragrant white tubular flowers along the branches from late spring to early summer. Its glossy pointy leaves emerge chartreuse, turning dark green in color with showy white variegation and tinges of grayish green throughout the year.

This is a multi-stemmed evergreen houseplant with a spreading, ground-hugging habit of growth. This plant may benefit from an occasional pruning to look its best.

Planting & Growing

When grown indoors, Variegated Confederate Star-Jasmine can be expected to grow to be about 10 feet tall at maturity, with a spread of 24 inches. It grows at a slow rate, and under ideal conditions can be expected to live for approximately 20 years. This houseplant will do well in a location that gets either direct or indirect sunlight, although it will usually require a more brightly-lit environment than what artificial indoor lighting alone can provide. It prefers to grow in average to moist soil. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It is not particular as to soil type or pH; an average potting soil should work just fine.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.

-- THIS IS A HOUSEPLANT AND IS NOT MEANT TO SURVIVE THE WINTER OUTDOORS IN OUR CLIMATE --
