Height: 24 inches

Spread: 30 inches

Sunlight: ○ ◐

Hardiness Zone: 9

Other Names: Yellow Allamanda, Yellow Bell, Buttercup Flower

Description:

This variety is perfect for indoor environments; the same floral form as the vining types in a bushy, contained habit with some cascading; excellent for containers and baskets

Features & Attributes

Golden Butterfly Golden Trumpet features showy clusters of fragrant yellow trumpet-shaped flowers with gold throats at the ends of the branches from early spring to late fall. Its attractive glossy pointy leaves remain dark green in color throughout the year.

This is a multi-stemmed evergreen houseplant with a mounded form. This plant may benefit from an occasional pruning to look its best.

Planting & Growing

When grown indoors, Golden Butterfly Golden Trumpet can be expected to grow to be about 24 inches tall at maturity, with a spread of 30 inches. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. This houseplant will do well in a location that gets either direct or indirect sunlight, although it will usually require a more brightly-lit environment than what artificial indoor lighting alone can provide. It prefers to grow in average to moist soil. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It is not particular as to soil type or pH; an average potting soil should work just fine.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.

-- THIS IS A HOUSEPLANT AND IS NOT MEANT TO SURVIVE THE WINTER OUTDOORS IN OUR CLIMATE --
