Height: 10 inches

Spread: 16 inches

Spacing: 12 inches

Sunlight: ○ ◐

Hardiness Zone: (annual)

Description:

This well branched, mounded variety is very free flowering, producing volumes of wonderful, lightly fragrant cherry red flowers with yellow eyes and white lower lips all season long; great for beds, borders, or containers

Ornamental Features

Parfum Cherries A La Mode Nemesia features dainty spikes of lightly-scented cherry red pea-like flowers with white overtones and yellow eyes at the ends of the stems from late spring to late summer. Its small serrated pointy leaves remain dark green in color throughout the season.

Landscape Attributes

Parfum Cherries A La Mode Nemesia is a dense herbaceous annual with an upright spreading habit of growth. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should not require much pruning, except when necessary, such as to remove dieback. It has no significant negative characteristics.

Parfum Cherries A La Mode Nemesia is recommended for the following landscape applications;

- Mass Planting
- Rock/Alpine Gardens
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Parfum Cherries A La Mode Nemesia will grow to be about 8 inches tall at maturity, with a spread of 16 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 12 inches apart. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in full sun to partial shade. It requires an evenly moist well-drained soil for optimal growth. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. Consider applying a thick mulch around the root zone over the growing season to conserve soil moisture. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Parfum Cherries A La Mode Nemesia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
