Plant Height: 8 inches

Flower Height: 12 inches

Spread: 12 inches

Spacing: 8 inches

Sunlight:

Hardiness Zone: 4

Other Names: Border Pinks, Cheddar Pinks

Group/Class: Scent From Heaven Series

Description:

This beautiful fragrant variety has an intense, sweet aroma; single to semi-double lacy flowers of pale pink and white, with deep red centers; great for borders, annual beds, and containers; remove spent flowers to promote re-blooming

Ornamental Features

Scent From Heaven Angel Of Enlightenment Pinks is smothered in stunning fragrant semi-double white frilly flowers with shell pink overtones and dark red centers at the ends of the stems from mid spring to late summer. The flowers are excellent for cutting. Its attractive narrow leaves remain grayish green in color throughout the year.

Landscape Attributes

Scent From Heaven Angel Of Enlightenment Pinks is an herbaceous evergreen perennial with a mounded form. It brings an extremely fine and delicate texture to the garden composition and should be used to full effect.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. It is a good choice for attracting bees and butterflies to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Scent From Heaven Angel Of Enlightenment Pinks is recommended for the following landscape applications;

- Mass Planting
- Rock/Alpine Gardens
- Border Edging
- General Garden Use
- Container Planting

Planting & Growing

Scent From Heaven Angel Of Enlightenment Pinks will grow to be about 8 inches tall at maturity extending to 12 inches tall with the flowers, with a spread of 12 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 8 inches apart. Its foliage tends to remain low and dense right to the ground. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. As an evegreen perennial, this plant will typically keep its form and foliage year-round.

This plant should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Scent From Heaven Angel Of Enlightenment Pinks is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers and foliage against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
