Description:

An early flowering, compact variety with excellent heat and disease tolerance; bright yellow and orange flowers create a cheerful and fun addition to hanging baskets, patio containers and borders

Ornamental Features

Babycakes Little Orange Nemesia features dainty spikes of fragrant yellow pea-like flowers with orange overtones and a purple flare at the ends of the stems from late spring to late summer. Its small pointy leaves remain green in color throughout the season.

Landscape Attributes

Babycakes Little Orange Nemesia is a dense herbaceous annual with a mounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and may require the occasional pruning to look its best. It is a good choice for attracting butterflies to your yard. It has no significant negative characteristics.

Babycakes Little Orange Nemesia is recommended for the following landscape applications;

- Mass Planting
- Rock/Alpine Gardens
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Babycakes Little Orange Nemesia will grow to be about 8 inches tall at maturity, with a spread of 12 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 8 inches apart. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. Consider applying a thick mulch around the root zone over the growing season to conserve soil moisture. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Babycakes Little Orange Nemesia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
