Angel Earrings® Cascading Fuchsia

Fuchsia 'Sanihanf'

Height: 24 inches

Spread: 3 feet

Sunlight: ○ ◐

Hardiness Zone: (annual)

Group/Class: Angel Earrings Series

Description:

An outstanding series that is very heat tolerant, with great garden performance; this cascading selection features dark purple corollas with scarlet-pink tubes and sepals; very attractive to hummingbirds; a perfect indoor accent plant

Features & Attributes

Angel Earrings Cascading Fuchsia features dainty nodding deep purple bell-shaped flowers with pink overtones and scarlet calyces along the branches from late spring to mid fall. Its serrated pointy leaves remain dark green in color throughout the year.

This is a dense multi-stemmed evergreen houseplant with a shapely form and gracefully arching foliage. This plant may benefit from an occasional pruning to look its best.

Planting & Growing

When grown indoors, Angel Earrings Cascading Fuchsia can be expected to grow to be about 24 inches tall at maturity, with a spread of 3 feet. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years. This houseplant will do well in a location that gets either direct or indirect sunlight, although it will usually require a more brightly-lit environment than what artificial indoor lighting alone can provide. It does best in average to evenly moist soil, but will not tolerate standing water. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It is not particular as to soil pH, but grows best in rich soil. Contact the store for specific recommendations on pre-mixed potting soil for this plant.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.

-- THIS IS A HOUSEPLANT AND IS NOT MEANT TO SURVIVE THE WINTER OUTDOORS IN OUR CLIMATE --
