Height: 12 inches

Spread: 12 inches

Sunlight: ◐ ●

Hardiness Zone: 10

Description:

This stunning plant produces intricate, pointed, heart shaped leaves in hues of dark green and grey; interesting slender flower stalks in summer; low to bright light, no direct sun; great for use as an indoor accent plant; low maintenance and easy to grow

Features & Attributes

Napoli Nights Peperomia's attractive heart-shaped leaves remain dark green in color with distinctive grayish green veins and tinges of gray throughout the year on a plant with a round habit of growth. It features unusual spikes of white flowers from early to mid summer.

This is an herbaceous evergreen houseplant with a more or less rounded form. This plant can be pruned at any time to keep it looking its best.

Planting & Growing

When grown indoors, Napoli Nights Peperomia can be expected to grow to be about 10 inches tall at maturity, with a spread of 12 inches. It grows at a slow rate, and under ideal conditions can be expected to live for approximately 5 years. This houseplant performs well in both bright or indirect sunlight and strong artificial light, and can therefore be situated in almost any well-lit room or location. It does best in average to evenly moist soil, but will not tolerate standing water. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It will benefit from a regular feeding with a general-purpose fertilizer with every second or third watering. It is not particular as to soil type or pH; an average potting soil should work just fine.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.

-- THIS IS A HOUSEPLANT AND IS NOT MEANT TO SURVIVE THE WINTER OUTDOORS IN OUR CLIMATE --
