Height: 3 feet

Spread: 4 feet

Sunlight: ○ ◐

Hardiness Zone: 7

Description:

A disease resistant and compact shrub with dense, deep green glossy foliage; clusters of white flowers in appear in spring; adaptable and salt tolerant, great choice for borders, containers, coastal gardens or as an accent; pruning is not necessary

Ornamental Features

Clean Sweep Snowbank Indian Hawthorn features showy clusters of lightly-scented white flowers at the ends of the branches from late winter to early spring. It has attractive dark green evergreen foliage. The glossy oval leaves are highly ornamental and remain dark green throughout the winter.

Landscape Attributes

Clean Sweep Snowbank Indian Hawthorn is a multi-stemmed evergreen shrub with a mounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and should not require much pruning, except when necessary, such as to remove dieback. It is a good choice for attracting birds to your yard. It has no significant negative characteristics.

Clean Sweep Snowbank Indian Hawthorn is recommended for the following landscape applications;

- Accent
- Hedges/Screening
- General Garden Use

Planting & Growing

Clean Sweep Snowbank Indian Hawthorn will grow to be about 3 feet tall at maturity, with a spread of 4 feet. It has a low canopy with a typical clearance of 1 foot from the ground. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. This plant will benefit from an application of bonemeal and/or mycorrhizal fertilizer at the time of planting. It is not particular as to soil type or pH, and is able to handle environmental salt. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
