Height: 18 inches

Spread: 24 inches

Sunlight:

Hardiness Zone: 4

Group/Class: Easy Elegance Rose

Description:

A compact rose with a tight round habit, the lovely pink buds open to display tiny pretty pink cup shaped flowers with white centers that cover the plant all season long; wonderfully disease resistant and low maintenance

Ornamental Features

Pink Gnome Rose is blanketed in stunning hot pink flowers with white overtones and yellow eyes at the ends of the branches from late spring to mid fall, which emerge from distinctive pink flower buds. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color. The fruits are showy red hips displayed in late fall.

Landscape Attributes

Pink Gnome Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Pink Gnome Rose is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Groundcover
- Container Planting

Planting & Growing

Pink Gnome Rose will grow to be about 18 inches tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

Pink Gnome Rose makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
