Height: 24 inches

Spread: 24 inches

Sunlight:

Hardiness Zone: 4

Group/Class: Polyantha Rose

Description:

This outstanding rose presents globular blooms of orange and red hues that are framed in white; blooms consistantly througout the season above green leathery foliage; a classic look and fragrance along walkways and in the garden setting

Ornamental Features

Leonie Lamesch Rose is bathed in stunning fragrant double red ball-shaped flowers with orange overtones and white edges at the ends of the branches from mid spring to mid fall. The flowers are excellent for cutting. It has green deciduous foliage which emerges dark red in spring. The oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Leonie Lamesch Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Leonie Lamesch Rose is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Groundcover
- Container Planting

Planting & Growing

Leonie Lamesch Rose will grow to be about 24 inches tall at maturity, with a spread of 24 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

Leonie Lamesch Rose makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
