

Brilliant Orange Rose

Rosa 'Brilliant Orange'

Height: 4 feet

Spread: 3 feet

Sunlight: 

Hardiness Zone: 5b

Group/Class: Hybrid Tea Rose

Description:

A vigorous, stout growing rose whose glossy dark green leaves and long lasting brilliant orange and yellow blooms light up the garden; long cutting stems, and excellent disease resistance; stunning when massed along borders

Ornamental Features

Brilliant Orange Rose features showy fragrant orange flowers with yellow eyes at the ends of the branches from late spring to early fall. The flowers are excellent for cutting. It has dark green deciduous foliage which emerges dark red in spring. The glossy oval compound leaves do not develop any appreciable fall color.

Landscape Attributes

Brilliant Orange Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Brilliant Orange Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Brilliant Orange Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
