

DebRon's White Linen Fuchsia
Fuchsia 'DebRon's White Linen'

Height: 24 inches

Spread: 3 feet

Sunlight:

Hardiness Zone: 9a

Other Names: Debron's White Linen

Group/Class: DebRon Series

Description:

A beautiful, large, trailing fuchsia variety featuring nodding white double flowers contrasting dark green foliage; attractive to hummingbirds; excellent for containers, hanging baskets, or window boxes

Ornamental Features

DebRon's White Linen Fuchsia features dainty nodding white trumpet-shaped flowers along the branches from early summer to mid fall. It has attractive green evergreen foliage. The pointy leaves are highly ornamental and remain green throughout the winter.

Landscape Attributes

DebRon's White Linen Fuchsia is a dense multi-stemmed evergreen shrub with a shapely form and gracefully arching branches. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting hummingbirds to your yard.

Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

DebRon's White Linen Fuchsia is recommended for the following landscape applications;

- Accent
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

DebRon's White Linen Fuchsia will grow to be about 24 inches tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. You may want to keep it away from hot, dry locations that receive direct afternoon sun or which get reflected sunlight, such as against the south side of a white wall. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

DebRon's White Linen Fuchsia makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor containers and hanging baskets. It can be used either as 'filler' or as a 'thriller' in the 'spiller-thriller-filler' container combination, depending on the height and form of the other plants used in the container planting. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
