Height: 4 feet

Spread: 4 feet

Sunlight:

Hardiness Zone: 5a

Other Names: Winchester Cathedral

Group/Class: Austin Rose

Description:

A lovely elegant variety with snowy white blooms with occasionally the slightest touch of shell pink at the center; the effect is tremendous, with a mass of flowers held on a full bushy shrub, blooming at regular intervals all season

Ornamental Features

White Mary Rose features showy fragrant double white flowers at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn yellow in fall.

Landscape Attributes

White Mary Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

White Mary Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

White Mary Rose will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.
