Plant Height: 18 inches

Flower Height: 24 inches

Spread: 24 inches

Spacing: 16 inches

Sunlight: ○ ◐

Hardiness Zone: (annual)

Group/Class: Savannah Series

Description:

A wonderful semi-compact selection featuring large blooms in stunning vivid colors; great for adding playfulness and color to garden beds, borders or patio containers; mid season bloomer; deadhead spent blooms to encourage new growth

Ornamental Features

Savannah Bright Red Geranium features bold balls of lightly-scented red flowers at the ends of the stems from late spring to early fall. The flowers are excellent for cutting. Its tomentose round palmate leaves remain green in colour with prominent brown stripes throughout the year.

Landscape Attributes

Savannah Bright Red Geranium is an herbaceous annual with an upright spreading habit of growth. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This plant will require occasional maintenance and upkeep. Trim off the flower heads after they fade and die to encourage more blooms late into the season. It has no significant negative characteristics.

Savannah Bright Red Geranium is recommended for the following landscape applications;

- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Savannah Bright Red Geranium will grow to be about 18 inches tall at maturity extending to 24 inches tall with the flowers, with a spread of 24 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 16 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. Although it's not a true annual, this fast-growing plant can be expected to behave as an annual in our climate if left outdoors over the winter, usually needing replacement the following year. As such, gardeners should take into consideration that it will perform differently than it would in its native habitat.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. This plant should not require much in the way of fertilizing once established, although it may appreciate a shot of general-purpose fertilizer from time to time early in the growing season. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Savannah Bright Red Geranium is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
