Height: 4 feet

Spread: 3 feet

Sunlight:

Hardiness Zone: 5a

Group/Class: Austin Rose

**Description:**

A beautifully fragrant upright rose that produces an abundance of very full cup-shaped bright shell pink flowers throughout the summer; this variety does not need any pampering as it is highly disease resistant; perfect for the front of borders

**Ornamental Features**

The Miller Rose features showy fragrant double shell pink flowers at the ends of the branches from late spring to late summer. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves turn yellow in fall.

**Landscape Attributes**

The Miller Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

The Miller Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

**Planting & Growing**

The Miller Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.
